

Saddle clamp for earth strip/flat

The clamps are available in both Aluminum and Stainless Steel and in a variety of sizes to ensure that all your clamping of earth strips are met. The clamps are designed to be used with/without a baseplate for quick and easy installation. These clamps provide an ideal way to attach the earth strip to a surface. Proving to be a simple and economic solution which ensures a high-quality fit is in place.

If required, a base plate in Aluminium (3mm) or Stainless Steel (SS 304) (2mm) can be provided on request.
If other sizes are required, please contact us.

Product Code	Suitable for Strip size (A x B) (mm)	Clamp Thickness (T) (mm)	Material
MECL.0075.AL.10	75 x 10	2	Aluminium
MECL.0075.AL.08	75 x 8	2	Aluminium
MECL.0050.AL.08	50 x 8	2	Aluminium
MECL.0050.AL.06	50 x 6	2	Aluminium
MECL.0040.AL.05	40 x 5	2	Aluminium
MECL.0075.SS.10	75 x 10	0.5	SS 304
MECL.0075.SS.08	75 x 8	0.5	SS 304
MECL.0050.SS.08	50 x 8	0.5	SS 304
MECL.0050.SS.06	50 x 6	0.5	SS 304
MECL.0040.SS.05	40 x 5	0.5	SS 304
